geology today

Annual Index
Volume 6, 1990

The following abbreviations are used in the index: def. = definition; Ed(s). = Editor(s); let(s). = letter(s); rev. = review. Figures and tables are given in *italics*.

A

Abietinaria 152
abrasives industry 28
Acasta gneiss 71, 140
accelerator mass spectrometry (AMS) 61–2
acid rain 64
acoustic reflectivity 156
acritarchs 178
actinolite 190
actinolite (tremolite) schist 192
Adelaide Geosyncline 16, 52
adularia 28
Agadez 19
Age of Ice: Landforms and Landscapes of the Quaternary, The, Nature Conservancy Council 40
Al Khlata Formation 52, 52, 53
alabaster 198, 199, 200
Alaska 15
  aircraft and volcanic ash plumes 185–6
  proposed drilling at Novarupta 183–4
albite 28
Aleutian Islands, volcanic activity 66
Alexander Island 94
algae 152
algal mats *see* stromatolites
algal reefs 51
alkali feldspar 28
  Minerals explained (12) 27–9
ALLABY, A. & M., *The Concise Oxford Dictionary of Earth Sciences* (rev.) 168–9
ALLEN, K. and BRIGGS, D. (eds), *Evolution and the Fossil Record* (rev.) 170–1
Alwyn Field 161
amazonite 28
American Association of Petroleum Geologists, Annual Convention 42
amino acids 57, 85
ammonites 20, 21, 46, 87, 127
amphibians, air-breathing 57
angiosperms 95
anhydrite 198
ankaramite 164
anorthoclase 27, 28
anoxic conditions 57, 179
Antarctic ice cap, effects of waxing and waning 118–19
Antarctic Peninsula, volcanism 94
Antarctica
  Cretaceous forests of 94–5 and the Greenhouse effect 118–19
  pattern and change in physical environment of ER1.ii(2)
  popularization of (let.) 89
  The changing ice cap 83
Ara Formation 51
Arachnidium smithii 152
aragonite 198
araucarians 95
Archaean igneous-volcanic rocks, Yilgarn Block 192
Archegonus 97
archosaurs 53
Arctic plants 93–4
arctic willow *see Salix arctica*
argillaceous (def.) 20
arid zones ER2.i(4)
Arran 189
  holding back on charges 108
  payment for access to fieldwork areas 74–5
  problem remains 182–3
arthritis 181
ash emission, an aircraft hazard 130–1, 185–6
ashlar ER3.i(6)
Asteroceras 127
asteroid impact, and rise in atmospheric temperature 86
atheloptic assemblage 97
ATKINS, F.B. *see* McKERROW, W.S. and ATKINS, F.B.
atmospheres, ancient, conceptual diagrams of surface processes *58*
atmospheric changes, preservation of 55
atmospheric evolution, synthesis of *59*
Aulacopleuridae 96–7
aulacopleurids 99
Australasia, Underwater minerals 148
Australia
  Antarctica and the Greenhouse effect 118–19
  Defining the continental margin 47–8
  New focus on regolith studies 14
  sea-bed boundaries 47
  The Newcastle earthquake 81–2
Australian Antarctic Division 118
Australian Geological Convention (10th) 118
autotroph (def.) 57

B

BA1990 177–82
bacteria 57, 153
badland (def.) 21
badland topography 20–1, *22*
BALDWIN, S.A., Fake fossils from Morocco, (let.) 17–18
BAMLETT, M.
  A Scottish conservation initiative 113
  Volcanism of the Hawaiian Islands (Geological excursion guide 7) 163–6
banded iron formations (BIFs) 57–8, 192
  def. 193
BARNES, J.W., Conglomerates unlimited (let.) 189
Barrow Hill plug 111
Baryonyx walkeri 78
basalt 164, 165, 190
base level, evaporitic lowering and subsequent raising of 15, 16
bassanite 198
Bath Stone ER3.ii(6)
BATTEN, D.J., Terminology (let.) 122–3
bauxite 14
beach barrier stacking 160
beach boulders ER3.i(6)
beaches, boulder and shingle ER2.i(4)
Beecheria 86
benthic (def.) 21
benthos, reduction in diversity 179
benzene, in bottled water 42
Berezovska mammoth 180–1
BERG-MADSEN, V., Posthornssnäcka (let.) 189
beryl 28
Big Boulder Bed, Cuba 70, 109
Big Feldspar Granite 28
bioherms 150
bioimmurations 151–4
  cast 152, 153, 154
  formation of *151*
  mould 152, 153, 154
biomolecular palaeontology 178
biostromes 34
biotite, bronze-brown 190, 191
bioturbation *23*, 161
bismuthinite 28
bivalves 20, 21, 22, 32–3, 126
  non-marine 19
  oyster-like 151, 154
  suspension-feeding 127
Black Country, applied geological mapping 110–11
Black Sea coast (Varna region), instability 147–8
black shale 87, 179
black smokers 87, 148, 178
Blakeney Esker 44, 91
blanket bog 184, *185*
bog conservation 185
bogs, survival of end-Pleistocene landscape 184
bolide impact 38
Bollandia 100
bonanza (def.) 193
bonanza Green Leader gold ore 192, 193
bone beds 20
Book reviews 34–5, 66–7, 102–3, 134–5, 168–71, 201–3
borehole images, subsurface crust
  electrical 195–7
  ultrasonic 154–6
Borehole Research Group (BRG) 107
borehole televiewer 155–6
borehole walls, shape and texture of 155, 156
Boso Peninsula *15*, 15
bottled water, contents of 42–3
brachiopods *153*, 153
Brachymetopidae 96–7
brachymetopids 99
Brachymetopus 100
Brachymetopus ornatus 99
braided river (def.) 19
braided river systems 20
Brassington Formation 26
breccia ER2.i(4), ER2.iii–iv(4)
  collapse *ER2.iii*(4)
  polymict *ER2.ii*(4)
  volcanic ER2.ii(4)
Brecia Frutticolosa ER2.iv(4)
Brecia Policroma o Traccagnina ER2.iv(4)
Brent delta 159–62
Brent Group
  diagenesis of 160–1
  palaeogeography 161–2
  palaeontology and palynology 161
  reservoir rocks 159
  sedimentology 160
  stratigraphy 161
Briefing 3–6, 38–43, 70–3, 106–9, 138–41, 174–7
BRIGGS, D.E.G. and CROWTHER, P.R., *Palaeobiology: A Synthesis* (rev.) 169
  see also ALLEN, K. and BRIGGS, D.
Bristol City Museum 10
Britain, major Earth-science research goals in the 1990s ER1.i–iv(2)
British Antarctic Survey (BAS) 8, ER1.i(2)
  popularization of (let.) 89
British Association for the Advancement of Science (BAAS)
  1990 meeting 177–82
  geological photos of 157–9
British Geological Survey ER1.i(2) 8
British Geological Survey
  new director 5
  to house, conserve and index BAAS geological photographs collection 158
British Institute for Geological Conservation (BIGC) 38–9
British Institutions Reflection Profiling Syndicate (BIRPS) 177, 187–8, ER1.ii(2)
British Petroleum
  sponsoring *Geology Today* in schools 2, 53–4
  and tomorrow's earth scientists 4
broad-band seismology, data centre for ER1.iv(2)
Broom Formation 160
BROWN, D. Lincolnshire plesiosaur hunter discovers rich vertebrate fauna 182
Bruce-Beryl embayment 162
bryozoa 179
  ctenostome *152*, 152
Bucharest
  buildings of 193
  Faculty of Geology and Geophysics 194
  Minerals Museum 194–5
building collapse 174
building stones ER3.i–iv(6)
  a basis for study of ER3.iii(6)
  problems arising ER3.iii–iv(6)
  stonework vocabulary ER3.i–iii(6)
Building Stones of Shropshire, The, M.A. Scard 77
Building for Success in the Earth Sciences: The Second Report of the Earth Sciences Review HMSO (let.) 54
buildings, 'ageing' of ER3.iv(6)

C

Caithness Flagstone 113
'Calcaires Blancs' 20
calcareous (def.) 21
calcite 152, 153, 160, 198
calcite formations, in limestone caves 24
calcite shells, development of 57
calcium sulphate 59
calderas 163, 164
CALLENDER, R.M., *Gold in Britain* (rev.) 135
Canada
  Arctic Tertiary forests 92–4
  increased funding for LITHOPROBE 139
  Yellowknife seismic array renewed 116–17
canyon-filling sequences 16
canyon passages 25
canyons, old, new thoughts on origins of 15–16
carbohydrates 57
carbon dioxide 59–60
  and cave development 24
carbon-14 60, 61
carbonate, micritic 70
carbonate sediment veneer, Patsy Springs Canyon 16
carbonate sediments 179
Cardinia 127
Carnmenellis Granite 28
cassiterite 28, 29
cast bioimmuration *152*, 152, 153, 154
CAT-scan technology 5
catfish 22
cathedrals, ailing fabric 175
cave (def.) 24
cave passages, phreatic and vadose 24–5
cave systems 13
Caves: new and old 24–7

cave deposits and dating 25–6
cave development 24–5
landscape and climate 26–7
Cefn y Fedw Sandstone 77
celestine 198, 199
Centre for Australian Regolith Studies 14
chalk, Maastrichtian 21
chamosite 127
Charnia 57
chatoyancy (def.) 198
Cheiracanthus 113
chemical precipitates, in caves 25–6
chemosynthetic vent community, early Carboniferous *87*
chert 13
Chile 47
volcanic activity 65, 133
chitinous (def.) 153
churchyards, a future for geology in 75–7
Cimonia landanensis 22
Cimonia sudanensis 22
cladding slabs ER3.i(6)
Clare Bay, aboriginal footprints 120
clastic sediments, caves 26
clasts, rudaceous ER2.i(4)
clay 14
clay minerals 28, 160
Cleopatra crater (Venus) 106
Cleveland Ironstone 126
climatic balance, fragile 118
climatic change, at BA1990 181
climatic variation, Plio-Pleistocene, Iullemmeden Basin 22
Cloudina 51, *51*
Clutha River 15
Clyde Dam, N Zealand, poor siting of 15
coal, high-quality, South Wales field 179–80
Coal Measures 111
Coan, Titus, recorded eruption of Kilauea and Mauna Loa 1835–82 49
coastal hazards database 72
COCORP 118
proposed new programme 4
collapse, in cave passages 25
Collection Centres, university 10
Collenia 57
Colombia, volcanic activity 65, 133
colonial animals, and bioimmuration 152
compass directions 45
computers, geological software 107
conglomerate 19, ER2.i–iv(4)
basal ER2.i–ii(4)
cementing materials ER2.ii(4)
diachronism in ER2.ii(4)
extraformational ER2.ii(4)
intraformational ER2.ii(4)
letter 189
oligomict ER2.ii(4)
ore deposits as cement ER2.iv(4)
polymict ER2.i(4)
uses of ER2.iv(4)
conifers, southern 95
conodonts 81, 87, 178, 179
conservation, and Irish boglands 185
continental deep drilling 9
Continental Lithosphere Program, USA 5, 176
continental margins 9, ER1.ii(2)
Australia 47–8, *48*
definitions of 47–8
passive *47*, ER1.ii(2)
continental shelf, legal 47
Australian 48
COOPER, M., The (late) Geological Museum (let.) 123–4
COOPER, M.P. and STANLEY, C.J., *Minerals of the English Lake District – Caldbeck Fells* (rev.) 203
corals 81, 154, 179
core samples
archive under threat 175
electrical images from 197
Coring Code 4, 48
Cormorant Field 161
Correspondence 17–18, 53–4, 87–91, 122–4, 188–9
Costa Rica, volcanic activity 63–4, 131
Council for the Care of Churches 75
County Wildlife Trusts 75–6, 91
Craigleith Quarry fossil tree trunks 44
crashometers 109
Crassostrea virginica 33
craton (def.) 55
Craven Basin 97, 100
CRAWFORD, A.R., Earth scientists in turmoil 14–15
Cretaceous Reptilia, Sir Richard Owen 78
Cretaceous–Tertiary crossroads of migration in the Sahel 19–23
crocodiles 19, 20
dyrosaurid 22
Crosby Warren Mine *126*
cross-stratification, hummocky 16
CROWTHER, P.R. *see* BRIGGS, D.E.G. and CROWTHER, P.R.
crust/upper mantle, electromagnetic studies 3, *40*
crustal remnant (large), oldest known 71
cryosphere studies 39
Cryptoclidus 7
Cryptoclidus eurymerus 182
cryptocrystalline (def.) ER2.ii(4)
Cumbria, rhizocretions 70–1
Cummingella 97, 100
Cummingella aff. *carringtonensis 98*
cyanobacteria 57
cyanobacterial material 56
cyclothems 19, 121
Cyrtoproetus 97

D

'Daisy Bed', Permian 199
Dana, J.D. 49, 50
dawn redwood *see* *Metasequoia*
Deccan Traps volcanism 85
deep continental drilling 38, 107
deep crustal studies 9, 9, ER1.iv(2)
Deep Sea Drilling Project (DSDP), data from 117–18
deep seismic reflection profiling ER1.ii(2)
Deer Cave, Gunong Mulu National Park 24
deformation structures 180
Deltoideum delta 153
Denmark, K/T section 85
Dentalium sp. *129*
Denver Well, induced earthquakes 16, 17
developing countries, seismic problems of 108
dewatering structures 160
diachronous (def.) ER2.ii(4)
diagenesis ER1.ii(2)
of the Brent Group 160–1
diagenetic/diagenesis (defs.) 141, ER1.ii(2)
Diamond Head crater 164
diamonds 14
diapirism 16
diatoms 83
dimension stone ER3.i(6)
Dinosaur Roadshow 4–5
dinosaurs 19, 38
camarasaurid sauropod 19, *20*
footprints 120
future for 115
in the Natural History Museum 7–8
diorite, layered and piped 71
Dipterus 113
discontinuities 106, 150
inclined 177
seismic, lower-crustal 187
Ditomopyge 100
dolomite 51, 60
dolphins 83
domes, non-eruptive 165
domino theory 5
Don Field 161
DONOVAN, S.K., Scaphopods (Fossils explained 12) 128–9
downhole measurements, and the study of geological processes 154–6
Draft Directive on Wildlife Habitats 45–6
Draugen Field 161
DREWRY, D.J., Popularizing Antarctica (let.) 89
drilling mud, impeding borehole televiewers 156
dropstones *52*, 52
DRURY, S.A., *A Guide to Remote Sensing: Interpreting Images of the Earth* (rev.) 201
DUNNING, F., The future of the Geological Museum (let.) 87–9

E

Earth, accretion of 55
Earth science teaching, and use of the churchyard 76
Earth sciences
awards to British scientists 72
British, future for 8–9
instruments for 29–30, 100–1, 162–3
petroleum Earth sciences ER1.ii(2)
radio programmes 39
regression in 178
US-USSR cooperation in 39
Earth scientists ER1.i(2)
problems of in N Zealand 14–15
earthquake risk 146
earthquake-loss estimation 146–7
earthquakes 38, *64*, *130*
induced 16–17
Mexico, and gravity waves 174
in UK 39
Earth's atmosphere, evolution of and its geological impact 55–60
earth's surface, Precambrian, conceptual cross-section 55
East Germany, core sample archive under threat 175
East Maui volcano 165
East Molokai 164
echinoids 20, 21, 22
Ecuador 15, 47
Ediacaran fauna 31, 57
education 145, 175
A-Level Earth sciences (let.) 53–4
BP sponsoring *Geology Today* in schools 2, 53–4
use of geological articles (let.) 53–4
Eisenackiella thanetensis 152
electrical images, permit identification of depositional features 196
electromagnetic earth 3, *40*
elephant's tusk shells *see* Scaphopods
Ellesmere Island *92*, 92
Emiliania huxleyi ER1.iii(2)
Emperor seamount chain 163
emu tracks 120
encrusting organisms, and bioimmuration 151–4
ENGELHARDT, W. von and ZIMMERMANN, J., *Theory of the Earth Sciences* (rev.) 67
Enrick Member 160
ENSOM, P.C.
a fossils roadshow at The Yorkshire Museum 46
see also THOMAS, J. and ENSOM, P.
Eocene clays 199
Eodiadema granulatum 127
epicontinental sea (def.) 55
erratics ER3.1(6)
ESLINGER, E. and PEVEAR, D., *Clay Minerals for Petroleum Geologists and Engineers* (rev.) 34
Estimating Losses from Future Earthquakes, National Research Council 146
Etive Formation 160
Etruria Formation 111
eukaryotes 57
def. 56
Eurasian plate 163
Europe, volcanic activity 66, 133–4
European Geotraverse ER1.iv(2)
evaporites 51, 59, 198
exclusive economic zones (EEZs) 47–8
Exogyra 33
Eycott Hill lavas ER2.ii(4)

F

Face Bedding ER3.iii(6)
facings, of building stone ER3.ii(6)
faecal pellets 20, 22
fault blocks 159, 160
fault patterns, North Sea 82
fault/shear zones, as upper mantle reflectors 188
faulting, normal 166
fauna, limited-diversity 86–7
feldspar
commercial extraction 28
transformation of 160
ferruginous (def.) 22
fieldwork areas, payment for access to 74–5
Filey Bay cliffs ER2.ii(4)
fish 20, 21, 22
flagstone ER3.i(6)
flash floods ER2.i(4)
Flinders Ranges, S Australia, oldest known canyons 15
Flint Ridge-Mammoth Cave system, USA 24
fluid removal, and induced earthquakes 17
fluidization structures 160
fluviatile (fluvial) (def.) 20
fold echeloning 191
Fontaine de Vaucluse 24–5
footprints from the past 120
foreland basin, development of South Wales Coalfield in 179–80
Formation Micro Scanner (FMS) 195–7

fossil collecting 112–13, 128
fossil fish 113
fossils
export of 174–5
sandwiched 151–4
Fossils explained 32–3, 128–9
Fossils Roadshow, Yorkshire Museum 46
Foyers Member 160
fracture formation 121
fractures, Ice Age animals 180–1
framboid (def.) 153
FRANCIS, J.E., Polar fossil forests 92–5
fraud, Indian Earth sciences 5, 80–1, 175
freestone ER3.i–ii(6)
named ER3.ii(6)
Frodingham Ironstone 112, 125–8
quarry preservation and exploitation 128
what future for geological study? 127–8
Frontiers of Earth Sciences to the Year 2000: Research Priorities for the United Kingdom, NERC and the Royal Society 9

G

ganister clay 121
garnets, detrital 162
Gass Report 10
letter 54
gastropods 73
Geikie, J., and the BAAS collection of geological photographs 157
gemstones, feldspars 28–9
genomes of past generations ER1.iii(2)
Genyornis 120
Geodigest 15–17, 51–3, 84–7, 120–2, 149–50, 186–8
Geoevents 63–6, 129–34
geological collections, museum, problems facing 78
Geological Column, mnemonics for 177
Geological Conservation Review: Quaternary of Wales, S. Campbell and D.Q. Bowen 111–12
Geological Conservation Review, historical sites 18
geological curator, peripatetic 78
Geological Curators' Group 10
Geological excursion guide 163–6
geological maps
1:10 000-scale and technical reports 110–11
engineering 111
thematic 110, 111
Geological Museum
comment on Robin Cocks' letter 123–4
the future of 7–8
gloomy facts and thoughts (let.) 87–9
Geological Remote Sensing Group 114
geological research, Black Country 111
geological specimens exhumed 6
geological structure
and cave development 25
shown well by Formation Micro Scanner 196–7
geological survey, sub-surface data 111
Geological Survey of Japan 107
geologists, future confusion of (let.) 90
Geologists' Association, meeting with Director of Natural History Museum 7–8
geologists' letters rediscovered 40
geology
absent from *Annual Review (1988–9)*, Royal Commission on the Historical Monuments of England 140, 174
and the churchyard 75–7
local, promotion of 44–5, 91
politics and S Africa 138–9
trends in 177
geology teaching, Norwegian fashion! 141
Geology Today
editorial changes 41
expansion plans 176
front cover pictures 41–2
sponsored in schools by BP 2, 53–4
Geophysical Data: Policy Issues, National Academy Press 118
geophysics, data repositories in the USA 117–18
geoscience, BA1990 177–8
geovandalism 48
geysers 11
glaciations
ancient, and oil reservoirs 52
and Rawtheyan–Hirnantian mass extinction 179
glaciofluvial deposits 52
glaciolacustrine deposits 52
Glasgow Garden Festival, new life for old 43–4
global environmental change, geology of ER1.iii(2)
Global Positioning System (GPS) 120
Glyptostrobus 93
gold 14, 189
Yilgarn Block 190–3
goldmining, N Zealand 15
Gondwanaland 95
Goose Creek oilfield 17
Gouffre Jean Bernard, France 24
grabens, North Sea 82
granite 28, ER3.ii(6)
an emitter of radon 141
syntectonic (and def.) 191, 192
graptolites 178
gravity apparatus 29–30
gravity waves, from earthquakes 174
Green Leader (def.) 193
'greenhouse' climate, Ordovician 179
greenhouse effect 83, 119
greenstone belts
Barberton region 48
Eastern Goldfields 192
Yilgarn Block 190–1
greenstone centres, complex 192
greenstones (def.) 192
greywacke ER3.iii(6)
